

M15LV Series Metric Mini Valve

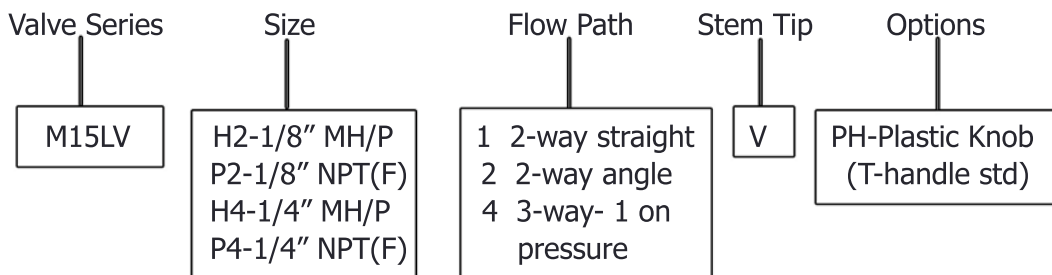

Features:

- Maximum allowable working pressure to 15,000 PSI
- Standard connection sizes 1/8"MH/P, 1/4"MH/P, 1/8"NPT, 1/4"NPT
- Temperature ranging from -100°F to 600°F (-73°C to 315°C)
- Body material - 316SS
- Integral through holes for bracket mounting
- Non-rotating vee stem
- Coated 17-4PH vee stem
- Standard with T-handle or optional knob handle

Benefits:

- Compact size
- DLC coating for longer stem life
- Complete line of fittings and tubing available

BuTech Pressure Systems is pleased to introduce into our line of valves, fittings and tubing, the "Mini Valve". This valve is constructed with metric glands to fit imperial size tubing and a metric packing gland. Available in three different body patterns; 2-way straight, 2-way angled and 3-way/one on pressure.
